

Finance - Loading Order Fee Statistical

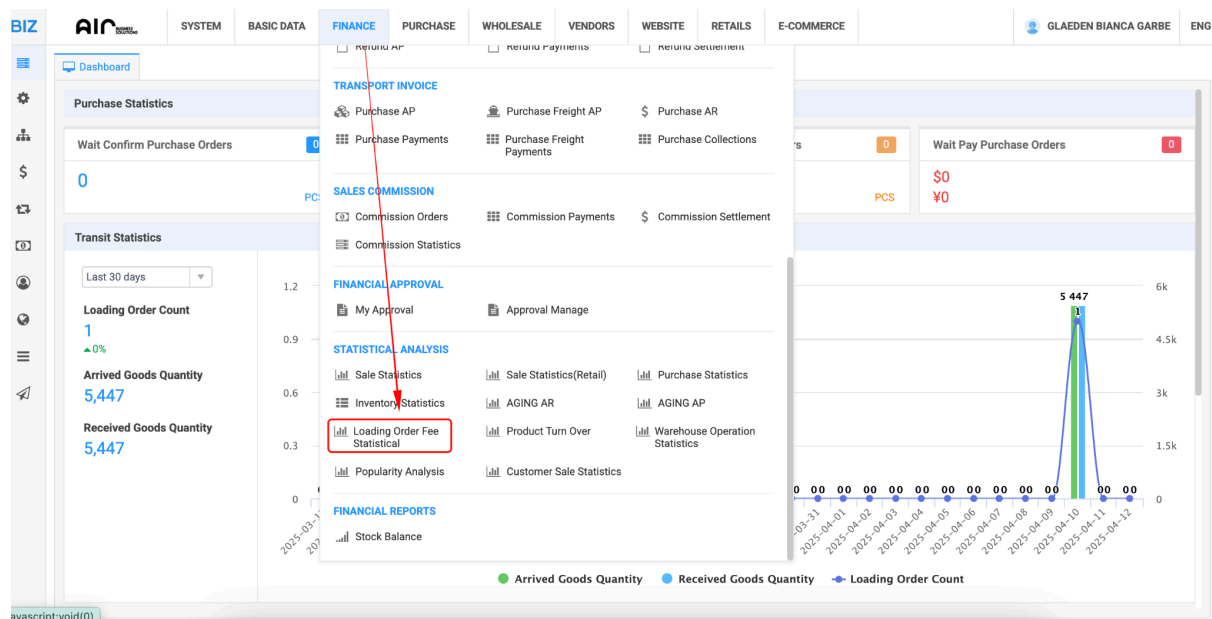

The **Loading Order Fee Statistical** tab provides detailed insights into the various costs associated with loading orders. It enables finance, logistics, and operations teams to analyze and manage cost breakdowns related to transportation, warehousing, labor, and other logistics activities. This module supports transparency and financial accuracy when handling shipments across different trade and transport types.

The tab includes two main views:

- **Loading Order**
- **Loading Order Details**

Navigation

To access the **Loading Order Fee Statistical** tab:

1. Log in to the **ERP System**.
2. Navigate to the **Logistics** or **Operations** module.
3. Click on **Loading Order Fee Statistical**.
4. Choose from the following sub-tabs:

- **Loading Order**
- **Loading Order Details**

Date	Commission	Duty	Tariff	Tariff Refund	Manage Fee	Air Cost	Ground Cost	Labor Cost	Loading Cost	Ship Cost	Storage Cost	Other Cost
7/2025			\$2350							\$100		
7/2025			\$6620.95									\$2292.222

Loading Order

This view provides a **summary-level breakdown** of various logistics-related costs per loading order or transport order.

Key Fields:

- **Transport Order No.** – Shipment or delivery reference number.
- **Loading Order No.** – Unique identifier for the loading order.
- **ETD** – Estimated Time of Departure.

- **Arrived Date** – Actual date the shipment arrived.

Cost Components:

- **Commission** – Brokerage or handling commission.
- **Duty** – Customs duty paid.
- **Tariff** – Applicable tariff charges.
- **Tariff Refund** – Refundable amount of tariff (if any).
- **Manage Fee** – Administrative or management fee.
- **Air Cost** – Charges related to air freight.
- **Ground Cost** – Ground transportation costs.
- **Labor Cost** – Cost of labor involved in loading/unloading.
- **Loading Cost** – Expenses directly related to loading activities.
- **Ship Cost** – Shipping or ocean freight charges.
- **Storage Cost** – Charges for warehouse storage.
- **Other Cost** – Any additional miscellaneous charges.

Searching and Filtering Options:

- **Transport Order Number** – Search by specific shipment ID.
- **Search by Type** – Filter by:
 - **Booking**
 - **Domestic**
 - **Online Return**
 - **Overseas**

- **Transfer**
- **Search by Trade Type** – Choose from:
 - **E-Commerce**
 - **Exclusive**
 - **Normal**
 - **Online Transfer**
- **Search by Fee Set Status** – Filter by setup stage:
 - **Unset**
 - **Set Up**
 - **Confirmed**
- **Arrived Date** – Filter by **Begin/End** range.
- **Departure Date (ETD)** – Filter by **Begin/End** range.

Loading Order Details

This view gives you a **granular, product-level breakdown** of costs under each transport and loading order.

Key Fields:

- **Picture** – Thumbnail image of the product (if available).
- **Product** – Item name or SKU.
- **Transport Order No.**
- **Loading Order No.**
- **ETD**
- **Arrived Date**

Detailed Cost Components (Per Product):

- Commission
- Duty
- Tariff
- Tariff Refund
- Manage Fee
- Air Cost
- Ground Cost
- Labor Cost
- Loading Cost
- Ship Cost
- Storage Cost
- Other Cost

This view is especially useful for detailed product-level financial tracking, especially when multiple items are included in a single shipment.

The **Loading Order Fee Statistical** tab empowers your team to evaluate and manage shipping costs across orders and individual products. It supports detailed financial tracking and cost allocation for better operational efficiency. Be sure to use the **filtering tools** to narrow down relevant records and ensure accurate cost reporting by shipment type, trade type, and status.

For advanced analytics or custom reports, contact your ERP administrator or refer to the Logistics module's user guide.
